Technical Data Sheet – Field Markers

Description;
Selectline field markers are durable, weather-resistant reference tools designed to support accurate and time-saving (re)marking of sports pitches. Made from robust synthetic fibers with a spiral anchor, they are installed flush into the turf using the dedicated installation key (included).

Each marker remains securely in place throughout the season and can be removed easily when needed. Ideal for marking fixed reference points such as corners, center lines, and penalty spots, ensuring consistent and repeatable line positioning.

Colour;
Available in White, Red, Blue, Yellow and Orange

Packaging;
25 pcs per box

Properties;
* Robust corded-cone design: features a spiral-shaped cone approximately 10 cm in length, of which around 4 cm is inserted into the ground, leaving 3–7 cm visible above the surface. The total length of the implant (including the cone and bristles) is approximately 17 cm.
* Weather-resistant & durable: designed to withstand mowing, pulling, foot traffic, and exposure to the elements.
* Quick installation and removal using supplied key
* Reusable and non-disruptive to turf

Technical data[1];

Material:	Wear and UV-resistant PVC or synthetic fibres
Dimensions:	Spiral anchor length : 10cm Visible bristle height : 3–7cm Total length : 17 cm Diameter: Approx 20mm
Weight:	Per box (25 pcs): 1 kg

Compatibility;
Suitable for use with natural turf, not recommended for synthetic surfaces.

Typical placement points;
Corner flags, halfway line intersections, penalty spots, or any recurring reference point needed for consistent line marking.

Why choose *Selectline* Field Markers?
* Significantly reduces time required for field re-marking
* Ensures consistency and accuracy throughout the season
* Withstands wear while remaining discreet and safe for players

Surplus product;
This product and the packaging should be disposed of at a collection point for hazardous or special waste.

Health and safety;
Before using this product please consult our Safety Data Sheet (SDS) for information on safe handling and storage. The SDS can be found on the company website.
