Technical Data Sheet – Flex Liner

Description;
The *Flex Liner* is a professional and high-quality battery powered line marking machine with smart charger. Its three-wheel (strong steel chassis) design ensures superior handling and operational efficiency. Made of high-quality materials and designed to ensure durability and performance for many years.

Properties;
* Lightweight and balanced design with excellent stability.
* Quick-turn functionality for edge and curve precision
* Compatible with various types of field.
* High pressure pump with spray part on the front.
* Adjustable line width from 6 cm to 12 cm
* User-friendly.
* Supplied with an empty 10L can.

Usage[1];
For a detailed description please see the *Flex Liner – User manual*.

Cleaning
For optimal usage, cleaning of the equipment is highly recommended. We advise to use clean water in combination with our *Selectline Cleaner* for the best result.

Storage conditions;
* Keep from freezing! Due to the battery!
* Advised storage temperature between 5°C - 30 °C

Technical data[1];

Weight:	31,5 kgs
Outer dimensions:	
Outer box;	85 x 64 x 58 cm
Mounted machine;	± 105 x 62 x 108 cm[2]
Line width;	Adjustable discs for a 6 cm, 8 cm, 10 cm & 12 cm width

Wheels:
Two solid rear wheels (puncture-proof, low ground pressure). The front wheel is made up of dual discs, designed to enhance functionality.

Pump;
High pressure Shurflo diaphragm pump with bypass (*Shurflo 8000-543-220*) generating 4.2 bar – 45 PSI capacity.

Battery;
The *Flex Liner* is equipped with a Landport EV12012 (12AH 20hr). This allows the user to mark up to five football pitches from one charge. All depending on the walking speed. The life expectancy of the battery is approximately two years, depending on the usage frequency and storage conditions. The battery should be kept out of freezing conditions.

Charging;
Quick access charging point including an indicator panel to notify you about the battery capacity during use of the machine. The charger is included to the *Flex Liner*.

Charging time around 10 to 12 hours (0% → 100%). It's a battery charger for everyday use. which features the FLOAT/PULSE maintenance program. This makes the charger ideal for long term maintenance. If you do not use your battery for long periods, you can extend the life of your battery by connecting it to the Charger. The charger is a 7 step fully automatic charger and indicates with LED lights which charging program your battery is in.

Warranty
The *Flex Liner* comes with a standard one-year manufacturer's warranty, which can be registered online.

Surplus product;
This product and the packaging should be disposed of at a collection point for hazardous or special waste.

Made in the Europe.
