Eclipse® F4

TEMPORARY PROTECTION FROM HEAT AND EXCESS LIGHT WITH NO NEED TO CLEAN

- **Temporary protection of your crop**
- **Adjustable shading intensity**
- **Variable protection time**
- **Wears off gradually during the season**
- **Easy application on all types of greenhouses**

FOR ALL GREENHOUSE SURFACES

Eclipse® F4 is a removable white shading agent for greenhouse applications. Eclipse F4 protects crops against too much heat and light throughout the season and can be applied on the outside of all standard greenhouse materials.

WHY

Our Eclipse F-series coatings are designed to provide effective, reliable shading protection during the first few weeks after application, gradually wearing off over the season as required. Under identical dilution and application conditions, each of the Eclipse F-series coatings produces the same results in terms of the shading rate, but offers a different protection time. The higher the number following the F, the longer the protection will last.

The shade layer reduces direct solar radiation, resulting in less stress, and protects the crops from sunburn, which improves yield and quality. In countries with a temperate climate, the Eclipse F4 is mainly used to protect ornamentals and leafy vegetables in greenhouses. In the warmer areas of the world, it is also used for fruit vegetables such as tomatoes and sweet peppers.

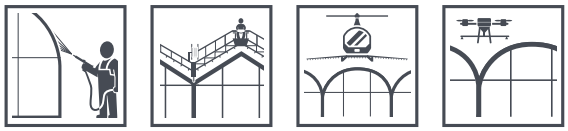

USAGE

The Eclipse F4 coating needs to be diluted with clean water before being sprayed onto the greenhouse. Depending on the application method, type of greenhouse, and climate, the dilution rate and amount of spraying liquid may vary to achieve the best result. The product can be applied manually, by machine, and by helicopter, and is compatible with all greenhouse surfaces.

DILUTION MANUAL APPLICATION

Amount of Eclipse F4		Amount of water		Total amount of spraying liquid		Shading percentage
Buckets per hectare	Buckets per acre	Liter	US gal	Liter per ha	US gal per acre	
10	4	1800	190	2000	210	30 - 35%
20	8	1700	180	2000	210	50 - 55%
30	12	1550	165	2000	210	70 - 75%
